Urine Collection and Preservation

Longest Stability at Room Temperature

1 COLLECT

Dried Preservative Makes Urine Collection Safe and Effortless

✓ No cumbersome pipetting of chemicals required to preserve urine samples
✓ Available in various formats for collection: 5cc, 15cc, 50cc, 120cc and single dose
✓ Urine preservative can be added to any collection format, liquid or dried

2 PRESERVE

Preserve Urine Samples at Room Temperature for up to 2 Years

✓ Acute preservation of urine samples regardless of origin (human or animal)
✓ Excellent preservation of cell-free nucleic acids and proteins for disease monitoring
✓ Long preservation time enables longitudinal studies and treatment monitoring

Norgen Biotek Corp.
TRANSPORT

Ship Samples with Confidence

- Preserved samples prevent microbial growth for safe transport and receipt
- Stable at extreme temperature fluctuations
- Eliminate costly cold chain shipping
- Avoid freeze-thaw damage to nucleic acids and proteins
- Receive the sample in the lab with highest integrity

APPLICATIONS

Preserved Urine Samples are well suited for applications ranging from routine urinalysis to the most sensitive NGS applications

- PCR/qPCR, Epigenetics, Fetal NA Screening, Biomarker Discovery, Genotyping, Next Generation Sequencing, and more
