| Precautionary statements:<br>Prevention:<br>Response:                                 | No precautionary statement(s) required)  |

of operation):

## Section 2. Hazard Identification

| Storage:  | Not applicable. |
|-----------|-----------------|
| Disposal: | Not applicable. |

## Section 3. Composition/information on ingredients

Substance/mixture:mixtureOther means ofNot Applicable

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

#### **Description of necessary first aid measures**

| Eye Contact:  | Immediately flush eyes with plenty of water, occasionally lifting the upper and         |
|---------------|---|
|               | lower eyelids. Check for and remove any contact lenses. Continue to rinse for at        |
|               | least 20 minutes. Get medical attention.  |
| Inhalation:   | Remove victim to fresh air and keep at rest in a position comfortable for               |
|               | breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, |
|               | provide artificial respiration or oxygen by trained personnel. It may be dangerous      |
|               | to the person providing aid to give mouth-to-mouth resuscitation. Get medical           |
|               | attention if adverse health effects persist or are severe. If unconscious, place in     |
|               | recovery position and get medical attention immediately. Maintain an open               |
|               | airway. Loosen tight clothing such as a collar, tie, belt or waistband.                 |
| Skin contact: | Flush contaminated skin with plenty of water. Get medical attention if symptoms         |
|               | occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.                 |
| Ingestion:    | Wash out mouth with water. Remove dentures if any. If material has been                 |
|               | swallowed and the exposed person feels sick as vomiting may be dangerous. Do            |
|               | not induce vomiting unless directed to do so by medical personnel. If vomiting          |
|               | occurs, the head should be kept low so that vomit does not enter the lungs. Get         |
|               | medical attention if adverse health effects persist or are severe. Never give           |
|               | anything by mouth to an unconscious person. If unconscious, place in recovery           |
|               | position and get medical attention immediately. Maintain an open airway. Loosen         |
|               | tight clothing such as a collar, tie, belt or waistband.                                |

## Section 4. First-aid measures

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects |  |  |
|--------------------------------|--|--|
| Eye contact:                   | In case of contact with eyes, rinse out with water. Remove contact lenses.     |  |
| Inhalation:                    | If inhaled, move patient to fresh air.   |  |
| Skin contact:                  | In case of skin contact, rinse skin with water. Remove contaminated clothing.  |  |
| Ingestion:                     | In case of ingestion, do not induce vomiting. Drink water. Consult a doctor if |  |
|                                | feeling unwell.  |  |

#### Over-exposure signs/symptoms

| Eye contact:  | Possible irritation                 |  |
|---------------|-------------------------------------|--|
| Inhalation:   | Possible cough, possible irritation |  |
| Skin contact: | Possible irritation                 |  |
| Ingestion:    | Possible stomach pains              |  |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician:  | Not applicable    |
|----------------------|-------------------|
| Specific treatments: | No data available |
| Protection of        |                   |
| first-aiders:        | No data available |

#### See toxicological information (Section 11)

## Section 10. Stability and reactivity

| Reactivity:          | No specific test data related to reactivity available for this product or its ingredients.           |
|----------------------|--|
| Chemical stability:  | The product is stable.   |
| Possibility of       |  |
| hazardous reactions: | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid: | No specific data.  |
| Incompatible         |  |
| materials:           | Reactive or incompatible with the following materials; oxidizing materials, acids and alkalis.       |
| Hazardous            |  |
| decomposition        |  |
| products:            | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicology information

#### Information on toxicology effects

#### Acute toxicity

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### Irritation/Corrosion

To the best of our knowledge, this mixture is not considered an irritant or corrosive.

#### **Sensitization**

There is no data available.

#### **Mutagenicity**

There is no data available.

#### Carcinogenicity

There is no data available.

#### **Reproductive toxicity**

There is no data available.

#### **Teratogenicity**

There is no data available.

#### Specific target organ toxicity (single exposure)

There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available. Aspiration hazard There is no data available. Information on the likely routes of Most likely routes of exposure are: Inhalation, Ingestion, skin contact. No hazards exposure: known for listed routes of exposure Potential acute health effects

Eye contact: No data available Inhalation: No data available Skin contact: No data available No data available Ingestion:

#### Symptoms related to the physical, chemical, and toxicological characteristics

| Eye contact:  | No data available |
|---------------|-------------------|
| Inhalation:   | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

#### Delayed and immediate effects and chronic effects from short- and long-term exposure

| No data available                |  |  |
|----------------------------------|--|--|
|                                  |  |  |
| No data available                |  |  |
|                                  |  |  |
|                                  |  |  |
| No data available                |  |  |
|                                  |  |  |
| No data available                |  |  |
| Potential chronic health effects |  |  |
| No data available                |  |  |
| No data available                |  |  |
| No data available                |  |  |
|                                  |  |  |

#### Reproductive

toxicity: No data available

#### Numerical measures of toxicity

#### Acute toxicity estimates

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

## Section 12. Ecological information

| <u>Toxicity</u>                 |  |
|---------------------------------|--|
| There is no data available.     |  |
| Persistence and degradabili     | ty   |
| There is no data available.     |  |
| <u>Mobility in soil</u>         |  |
| Soil/water partition            |  |
| coefficient (K <sub>oc</sub> ): | Not available.                                   |
| Other adverse effects:          | No known significant effect or critical hazards. |

## Section 13. Disposal considerations

#### **Disposal methods:**

methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

## Section 2. Hazard Identification

Storage:Not applicable.Disposal:Not applicable.

## Section 3. Composition/information on ingredients

Substance/mixture:mixtureOther means ofNot Applicable

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

#### **Description of necessary first aid measures**

| Eye Contact:  | Immediately flush eyes with plenty of water, occasionally lifting the upper and         |
|---------------|---|
|               | lower eyelids. Check for and remove any contact lenses. Continue to rinse for at        |
|               | least 20 minutes. Get medical attention.  |
| Inhalation:   | Remove victim to fresh air and keep at rest in a position comfortable for               |
|               | breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, |
|               | provide artificial respiration or oxygen by trained personnel. It may be dangerous      |
|               | to the person providing aid to give mouth-to-mouth resuscitation. Get medical           |
|               | attention if adverse health effects persist or are severe. If unconscious, place in     |
|               | recovery position and get medical attention immediately. Maintain an open               |
|               | airway. Loosen tight clothing such as a collar, tie, belt or waistband.                 |
| Skin contact: | Flush contaminated skin with plenty of water. Get medical attention if symptoms         |
|               | occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.                 |
| Ingestion:    | Wash out mouth with water. Remove dentures if any. If material has been                 |
|               | swallowed and the exposed person feels sick as vomiting may be dangerous. Do            |
|               | not induce vomiting unless directed to do so by medical personnel. If vomiting          |
|               | occurs, the head should be kept low so that vomit does not enter the lungs. Get         |
|               | medical attention if adverse health effects persist or are severe. Never give           |
|               | anything by mouth to an unconscious person. If unconscious, place in recovery           |
|               | position and get medical attention immediately. Maintain an open airway. Loosen         |
|               | tight clothing such as a collar, tie, belt or waistband.                                |

## Section 4. First-aid measures

#### Most important symptoms/effects, acute and delayed

| Potential acute he | ealth effects  |
|--------------------|--|
| Eye contact:       | In case of contact with eyes, rinse out with water. Remove contact lenses.                     |
| Inhalation:        | If inhaled, move patient to fresh air.   |
| Skin contact:      | In case of skin contact, rinse skin with water. Remove contaminated clothing.                  |
| Ingestion:         | In case of ingestion, do not induce vomiting. Drink water. Consult a doctor if feeling unwell. |

#### **Over-exposure signs/symptoms**

| Eye contact:  | Possible irritation                 |
|---------------|-------------------------------------|
| Inhalation:   | Possible cough, possible irritation |
| Skin contact: | Possible irritation                 |
| Ingestion:    | Possible stomach pains              |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician:  | Not applicable    |
|----------------------|-------------------|
| Specific treatments: | No data available |
| Protection of        |                   |
| first-aiders:        | No data available |

#### See toxicological information (Section 11)

#### Section 5. Fire-fighting measures

#### **Extinguishing media** Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Unsuitable extinguishing media: For this substance/mixture no limitations of extinguishing agents are given. Specific hazards arising from the chemical: Not combustible. Ambient fire may liberate hazardous vapours Hazardous thermal decomposition products: None Special protective actions for fire-fighters: In the event of fire, wear self-contained breathing apparatus. Special protective

#### equipment for

| Section 6. Accidental release measures |  |

## Section 10. Stability and reactivity

| Reactivity:          | No specific test data related to reactivity available for this product or its ingredients.           |
|----------------------|--|
| Chemical stability:  | The product is stable.   |
| Possibility of       |  |
| hazardous reactions: | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid: | No specific data.  |
| Incompatible         |  |
| materials:           | Reactive or incompatible with the following materials; oxidizing materials, acids and alkalis.       |
| Hazardous            |  |
| decomposition        |  |
| products:            | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicology information

#### Information on toxicology effects

#### Acute toxicity

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### Irritation/Corrosion

To the best of our knowledge, this mixture is not considered an irritant or corrosive.

#### Sensitization

There is no data available.

#### Mutagenicity

There is no data available.

#### Carcinogenicity

There is no data available.

#### **Reproductive toxicity**

There is no data available.

#### **Teratogenicity**

There is no data available.

Specific target organ toxicity (single exposure)

There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available.

Aspiration hazard

There is no data available.

#### Information on the

likely routes of

exposure:

Most likely routes of exposure are: Inhalation, Ingestion, skin contact. No hazards known for listed routes of exposure

#### Potential acute health effects

| Eye contact:  | No data available |
|---------------|-------------------|
| Inhalation:   | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

#### Symptoms related to the physical, chemical, and toxicological characteristics

| Eye contact:  | No data available |
|---------------|-------------------|
| Inhalation:   | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

#### Delayed and immediate effects and chronic effects from short- and long-term exposure

| Short term exposure              |                   |  |
|----------------------------------|-------------------|--|
| Potential immediate              |                   |  |
| effects:                         | No data available |  |
| Potential delayed                |                   |  |
| effects:                         | No data available |  |
| Long term exposure               |                   |  |
| Potential immediate              |                   |  |
| effects:                         | No data available |  |
| Potential delayed                |                   |  |
| effects:                         | No data available |  |
| Potential chronic health effects |                   |  |
| General:                         | No data available |  |
| Carcinogenicity:                 | No data available |  |
|                                  |                   |  |

Mutagenicity:No data availableReproductiveVo data availabletoxicity:No data available

#### Numerical measures of toxicity

#### Acute toxicity estimates

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

**Other adverse effects:** No known significant effect or critical hazards.

## Section 13. Disposal considerations

# **Disposal methods:** The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Substance/mixture:mixtureOther means ofNot Applicable

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

#### **Description of necessary first aid measures**

| Eye Contact:  | Immediately flush eyes with plenty of water, occasionally lifting the upper and         |
|---------------|---|
|               | lower eyelids. Check for and remove any contact lenses. Continue to rinse for at        |
|               | least 20 minutes. Get medical attention.  |
| Inhalation:   | Remove victim to fresh air and keep at rest in a position comfortable for               |
|               | breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, |
|               | provide artificial respiration or oxygen by trained personnel. It may be dangerous      |
|               | to the person providing aid to give mouth-to-mouth resuscitation. Get medical           |
|               | attention if adverse health effects persist or are severe. If unconscious, place in     |
|               | recovery position and get medical attention immediately. Maintain an open               |
|               | airway. Loosen tight clothing such as a collar, tie, belt or waistband.                 |
| Skin contact: | Flush contaminated skin with plenty of water. Get medical attention if symptoms         |
|               | occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.                 |
| Ingestion:    | Wash out mouth with water. Remove dentures if any. If material has been                 |
|               | swallowed and the exposed person feels sick as vomiting may be dangerous. Do            |
|               | not induce vomiting unless directed to do so by medical personnel. If vomiting          |
|               | occurs, the head should be kept low so that vomit does not enter the lungs. Get         |
|               | medical attention if adverse health effects persist or are severe. Never give           |
|               | anything by mouth to an unconscious person. If unconscious, place in recovery           |
|               | position and get medical attention immediately. Maintain an open airway. Loosen         |
|               | tight clothing such as a collar, tie, belt or waistband.                                |

## Section 4. First-aid measures

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects   |  |  |  |
|--|--|--|--|
| Eye contact:   | In case of contact with eyes, rinse out with water. Remove contact lenses. |  |  |
| Inhalation: If inhaled, move patient to fresh air.   |  |  |  |
| Skin contact: In case of skin contact, rinse skin with water. Remove contaminated clothin              |  |  |  |
| Ingestion: In case of ingestion, do not induce vomiting. Drink water. Consult a doc<br>feeling unwell. |  |  |  |

#### **Over-exposure signs/symptoms**

| Eye contact:  | Possible irritation                 |
|---------------|-------------------------------------|
| Inhalation:   | Possible cough, possible irritation |
| Skin contact: | Possible irritation                 |
| Ingestion:    | Possible stomach pains              |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician:  | Not applicable    |
|----------------------|-------------------|
| Specific treatments: | No data available |
| Protection of        |                   |
| first-aiders:        | No data available |

#### See toxicological information (Section 11)

#### Section 5. Fire-fighting measures

#### **Extinguishing media** Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Unsuitable extinguishing media: For this substance/mixture no limitations of extinguishing agents are given. Specific hazards arising from the chemical: Not combustible. Ambient fire may liberate hazardous vapours Hazardous thermal decomposition products: None Special protective actions for fire-fighters: In the event of fire, wear self-contained breathing apparatus. Special protective

#### equipment for

| Section 6. Accidental release measures                |  |  |
|---|--|--|
| fire-fighters:  | In the event of fire, wear self-contained breathing apparatus.   |  |
| Personal precaution                                   | s, protective equipment, and emergency procedures  |  |
| For non-emergency                                     |  |  |
| personnel:  | Advice for non-emergency personnel: Do not breathe vapors, aerosols. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8. |  |
| For emergency   |  |  |
| responders:   | Advice for emergency responders: Do not breathe vapors, aerosols. Evacuate the danger area, observe emergency procedures. For personal protection see section 8.                       |  |
| Environmental   |  |  |
| precautions:  | No special precautionary measures necessary  |  |
| Methods and materials for containment and cleaning up |  |  |
| Small spill:  | Dilute with water. Wipe up with absorbent pad.   |  |
| Large spill:  | Observe possible material restrictions (see sections 7 and 10). Take up with liquid  |  |
|   | absorbent material. Dispose of properly. Clean up affected area.   |  |

## Section 7. Handling and storage

| Precautions for safe handling |  |  |
|-------------------------------|--|--|
| Protective measures:          | : For precautions see section 2.                             |  |
| Advice on general             |  |  |
| occupational                  |  |  |
| hygiene:                      | Wear appropriate PPE (if any) when handling.                 |  |
| Conditions for safe           |  |  |
| storage, including            |  |  |
| incompatibilities:            | No special storage conditions required. Keep tightly closed. |  |

## Section 8. Exposure controls/personal protection

#### Control parameters

**Occupational exposure limits** 

Contains no substances with occupational exposure limit values

#### Appropriate engineering

controls:Not required.EnvironmentalNot required.exposure controls:Not required.

#### Individual protection measures Hygiene measures: No data available Eye/face protection:

| Skin protection  |              |
|------------------|--------------|
| Hand protection: | Not required |
| Body protection: | Not required |
| Other skin       |              |
| protection:      | Not required |
| Respiratory      |              |
| protection:      | Not required |

## Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### Appearance:

| Physical State:        | Liquid             |
|------------------------|--------------------|
| Color:                 | Clear, colourless  |

## Section 10. Stability and reactivity

| Reactivity:          | No specific test data related to reactivity available for this product or its ingredients.           |
|----------------------|--|
| Chemical stability:  | The product is stable.   |
| Possibility of       |  |
| hazardous reactions: | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid: | No specific data.  |
| Incompatible         |  |
| materials:           | Reactive or incompatible with the following materials; oxidizing materials, acids and alkalis.       |
| Hazardous            |  |
| decomposition        |  |
| products:            | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicology information

#### Information on toxicology effects

#### Acute toxicity

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### Irritation/Corrosion

To the best of our knowledge, this mixture is not considered an irritant or corrosive.

#### Sensitization

There is no data available.

#### Mutagenicity

There is no data available.

#### Carcinogenicity

There is no data available.

#### **Reproductive toxicity**

There is no data available.

**Teratogenicity** 

There is no data available.

Specific target organ toxicity (single exposure)

There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available.

Aspiration hazard

There is no data available.

#### Information on the

likely routes of

exposure:

Most likely routes of exposure are: Inhalation, Ingestion, skin contact. No hazards known for listed routes of exposure

#### Potential acute health effects

| Eye contact:  | No data available |
|---------------|-------------------|
| Inhalation:   | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

#### Symptoms related to the physical, chemical, and toxicological characteristics

| Eye contact:  | No data available |
|---------------|-------------------|
| Inhalation:   | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

#### Delayed and immediate effects and chronic effects from short- and long-term exposure

| Short term exposure              |                   |  |
|----------------------------------|-------------------|--|
| Potential immediate              |                   |  |
| effects:                         | No data available |  |
| Potential delayed                |                   |  |
| effects:                         | No data available |  |
| Long term exposure               |                   |  |
| Potential immediate              |                   |  |
| effects:                         | No data available |  |
| Potential delayed                |                   |  |
| effects:                         | No data available |  |
| Potential chronic health effects |                   |  |
| General:                         | No data available |  |
| Carcinogenicity:                 | No data available |  |
|                                  |                   |  |

Mutagenicity:No data availableReproductiveVo data availabletoxicity:No data available

#### Numerical measures of toxicity

#### Acute toxicity estimates

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

## Section 12. Ecological information

| <u>Toxicity</u>                 |                |

|                                 |                |

**Other adverse effects:** No known significant effect or critical hazards.

## Section 13. Disposal considerations

# **Disposal methods:** The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 2. Hazard Identification

Storage:NoDisposal:No

Not applicable. Not applicable.

## Section 3. Composition/information on ingredients

Substance/mixture:Substance.Other means ofNot applicable.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First-aid measures

#### **Description of necessary first aid measures**

| Eye Contact:  | Immediately flush eyes with plenty of water, occasionally lifting the upper and  |
|---------------|--|
|               | lower eyelids. Check for and remove any contact lenses. Continue to rinse for at   |
|               | least 20 minutes. Get medical attention.   |
| Inhalation:   | Remove victim to fresh air and keep at rest in a position comfortable for  |
|               | breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs,  |
|               | provide artificial respiration or oxygen by trained personnel. It may be dangerous   |
|               | to the person providing aid to give mouth-to-mouth resuscitation. Get medical  |
|               | attention if adverse health effects persist or are severe. If unconscious, place in  |
|               | recovery position and get medical attention immediately. Maintain an open  |
|               | airway. Loosen tight clothing such as a collar, tie, belt or waistband.  |
| Skin contact: | Flush contaminated skin with plenty of water. Get medical attention if symptoms  |
|               | occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion:    | Wash out mouth with water. Remove dentures if any. If material has been  |
|               | swallowed and the exposed person feels sick as vomiting may be dangerous. Do   |
|               | not induce vomiting unless directed to do so by medical personnel. If vomiting   |
|               | occurs, the head should be kept low so that vomit does not enter the lungs. Get  |
|               | medical attention if adverse health effects persist or are severe. Never give  |
|               | anything by mouth to an unconscious person. If unconscious, place in recovery  |
|               | position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
|               |  |

## Section 4. First-aid measures

#### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

| Eye contact:  | In case of contact with eyes, rinse out with water. Remove contact lenses.     |
|---------------|--|
| Inhalation:   | If inhaled, move patient to fresh air.   |
| Skin contact: | In case of skin contact, rinse skin with water. Remove contaminated clothing.  |
| Ingestion:    | In case of ingestion, do not induce vomiting. Drink water. Consult a doctor if |
|               | feeling unwell.  |

#### **Over-exposure signs/symptoms**

| Eye contact:  | Possible irritation.                 |
|---------------|--------------------------------------|
| Inhalation:   | Possible cough, possible irritation. |
| Skin contact: | Possible irritation.                 |
| Ingestion:    | Possible stomach pains.              |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician:  | Not applicable.    |
|----------------------|--------------------|
| Specific treatments: | No data available. |
| Protection of        |                    |
| first-aiders:        | No data available. |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| <u>Extinguishing media</u><br>Suitable extinguishin<br>media: | <b>g</b><br>Use extinguishing measures that are appropriate to local circumstances and the<br>surrounding environment. |
|---|--|
| Unsuitable  |  |
| extinguishing media:  | For this substance no limitations of extinguishing agents are given.   |
| Specific hazards  |  |
| arising from the  |  |
| chemical:   | Not combustible. Ambient fire may liberate hazardous vapours.  |
| Hazardous thermal decomposition                               |  |
| products:   | None.  |
| Special protective<br>actions for<br>fire-fighters:           | In the event of fire, wear self-contained breathing apparatus.   |
| Special protective<br>equipment for<br>fire-fighters:         | In the event of fire, wear self-contained breathing apparatus.   |

## Section 6. Accidental release measures

| Personal precauti | ons, protective equipment, and emergency procedures  |
|-------------------|--|
| For non-emergen   | су   |
| personnel:        | Advice for non-emergency personnel: Do not breathe vapors, aerosols. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8. |
| For emergency     |  |
| responders:       | Advice for emergency responders: Do not breathe vapors, aerosols. Evacuate the danger area, observe emergency procedures. For personal protection see section 8.                       |
| Environmental     |  |
| precautions:      | No special precautionary measures necessary.   |
| Methods and mat   | terials for containment and cleaning up  |
| Small spill:      | Dilute with water. Wipe up with absorbent pad.   |
| Large spill:      | Observe possible material restrictions (see sections 7 and 10). Take up with liquid absorbent material. Dispose of properly. Clean up affected area.                                   |

## Section 7. Handling and storage

Precautions for safe handlingProtective measures:For precautions see section 2.Advice on generaloccupationalhygiene:Wear appropriate PPE (if any) when handling.Conditions for safestorage, includingincompatibilities:No special storage conditions required. Keep tightly closed.

## Section 8. Exposure controls/personal protection

#### Control parameters

#### Occupational exposure limits

Contains no substances with occupational exposure limit values.

Appropriate engineering<br/>controls:Not required.Environmental<br/>exposure controls:Not required.

Individual protection measures Hygiene measures: No data available.

#### **Eye/face protection:** No data available.

| Skin protection  |               |
|------------------|---------------|
| Hand protection: | Not required. |
| Body protection: | Not required. |
| Other skin       |               |
| protection:      | Not required. |
| Respiratory      |               |
| protection:      | Not required. |

## Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| Appearance:            |                    |
|------------------------|--------------------|
| Physical State:        | Liquid.            |
| Color:                 | Colourless.        |
| Odor:                  | Not available.     |
| Odor threshold:        | Not available.     |
| pH:                    | Not available.     |
| Melting point/         |                    |
| freezing point:        | Not applicable.    |
| Boiling point, initial |                    |
| boiling point, and     |                    |
| boiling range:         | Not available.     |
| Flash point:           | Not applicable.    |
| Evaporation rate:      | Not available.     |
| Flammability:          | Not available.     |
| Lower and upper        |                    |
| explosion limit/       |                    |
| flammability limit:    | Not available.     |
| Vapor pressure:        | Not available.     |
| Relative vapor         |                    |
| density:               | Not available.     |
| Relative density:      | Not available.     |
| Solubility:            | Miscible in water. |
| Partition coefficient: | Not applicable.    |
| n-octanol/water        |                    |
| Auto-ignition          |                    |
| temperature:           | Not available.     |
|                        |                    |

| Decomposition           |                 |
|-------------------------|-----------------|
| temperature:            | Not available.  |
| Viscosity:              | Not available.  |
| Flow time               |                 |
| (ISO 2431):             | Not available.  |
| Particle characteristic | <u>:s</u>       |
| Median particle size:   | Not applicable. |
|                         |                 |

## Section 10. Stability and reactivity

| Reactivity:  | No specific test data related to reactivity available for this product or its ingredients.           |
|--|--|
| Chemical stability:<br>Possibility of                        | The product is stable.   |
| hazardous reactions:<br>Conditions to avoid:<br>Incompatible | Under normal conditions of storage and use, hazardous reactions will not occur.<br>No specific data. |
| materials:   | Reactive or incompatible with the following materials; oxidizing materials, acids and alkalis.       |
| Hazardous<br>decomposition<br>products:                      | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicology information

#### Information on toxicology effects

#### Acute toxicity

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### Irritation/Corrosion

To the best of our knowledge, this substance is not considered an irritant or corrosive.

#### **Sensitization**

There is no data available.

#### **Mutagenicity**

There is no data available.

#### Carcinogenicity

There is no data available.

#### **Reproductive toxicity**

There is no data available.

#### **Teratogenicity**

There is no data available.

#### Specific target organ toxicity (single exposure)

There is no data available.

Specific target organ toxicity (repeated exposure)

There is no data available.

#### Aspiration hazard

There is no data available.

#### Information on the

likely routes of

exposure:

Most likely routes of exposure are: Inhalation, Ingestion, skin contact. No hazards known for listed routes of exposure.

#### Potential acute health effects

| Eye contact:  | No data available. |
|---------------|--------------------|
| Inhalation:   | No data available. |
| Skin contact: | No data available. |
| Ingestion:    | No data available. |

#### Symptoms related to the physical, chemical, and toxicological characteristics

| Eye contact:  | No data available. |
|---------------|--------------------|
| Inhalation:   | No data available. |
| Skin contact: | No data available. |
| Ingestion:    | No data available. |

#### Delayed and immediate effects and chronic effects from short- and long-term exposure

#### Short term exposure Potential immediate No data available. effects: Potential delayed effects: No data available. Long term exposure Potential immediate No data available. effects: Potential delayed effects: No data available. Potential chronic health effects General: No data available. No data available. Carcinogenicity: Mutagenicity: No data available.

#### Reproductive

toxicity:

No data available.

#### Numerical measures of toxicity

#### Acute toxicity estimates

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

## Section 12. Ecological information

| Toxicity                        |  |
|---------------------------------|--|
| There is no data available.     |  |
| Persistence and degradabil      | <u>ity</u>                                       |
| There is no data available.     |  |
| <u>Mobility in soil</u>         |  |
| Soil/water partition            |  |
| coefficient (K <sub>oc</sub> ): | Not available.                                   |
| Other adverse effects:          | No known significant effect or critical hazards. |

## Section 13. Disposal considerations

#### Disposal methods:

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|               | <b>TGD Classification</b> | DOT Classification (US) | IMGD           | ΙΑΤΑ           |
